

LEARN HOW WE CAN HELP YOU
Look, Feel and BE Fantastic!

GREETINGS FROM *Dr. John Friedrichs, D.C.*

What is Your Purpose?

It is my belief that every person should have a Purpose for living. Who are YOU? What do you stand for as a human being? As I introduce myself to you and the health care which I so proudly deliver, I wish for you to know my Purpose for living.

My purpose is to enjoy the gift of life God gave me by being generous, loving, caring, considerate, happy, energetic, honest, kind, compassionate and motivated. To share the love of life and my time on earth with the people whom I love and who love me. I want to put a smile on everyone who comes my way and send a blessing of faith their way. Integrity, character, loyalty, honesty and love are symbols of my life.

My purpose is to be the best father, son, brother, uncle, companion, doctor and friend for all who know me and to be remembered as one who is kind, considerate, loving and happy with life. I will share the dream with my daughters and encourage both to own it themselves through the joy of living through Christ. Show my love for both in ways more powerful than words. Teach my daughters the power of spiritual prayer, meditation and solitude..

My purpose is to help as many people as I can enjoy optimal health to the best of my ability through the health care services I provide. To share my knowledge of health and wellness with those who are interested in enjoying a healthier lifestyle. Educate the masses in a wellness model of health for an optimal living experience through Healthy Educated Choices. I will empower those searching for health to find it within.

”

I am so pleased with my results! I've lost 16lbs, went from 37% body fat to 28%, my BMI dropped from 26.3 to 23.6. From the 'overweight' range to 'healthy'! My losses are amazing, but what I gained through the coaching sessions were so much more valuable. They taught me so much about my body and the food that I put into it. I am so grateful to WellConsulted for giving me the tools to lead a long, healthy life. - CH
